

## Ecosystem Scavenger Hunt

Instructions: Look outside your house or go for a walk and see what parts of an ecosystem that you can find!

Find....

- producers in all the colors of the rainbow
- a consumer
- a decomposer
- places where insects or animals can live
- a plant that has been eaten
- soil
- a source of water (i.e. puddles, holes in rocks, stream, etc.)
- a seed
- a shady spot
- something left or made by a human (trash, trails, playgrounds, etc.)

What is the most interesting thing you found?

Show us what you found! Take a picture of something from your scavenger hunt and with permission, post it on Facebook or Instagram using the hashtag #CECconnects!
