

## Pollinator ID

1. Write the name of each pollinator in the box.
2. Fill in the boxes for each pollinator. You can research each one to help you find the answers.  
Think about what the pollinator looks like: *What color is it? Is it fuzzy? Is it an insect or a mammal? Does it have a long tongue? Can it fly?*  
Many pollinators like certain flowers. *Do they like long thin flowers, ones only open at night, or that have bright colors?*

### Example:

Looks like...

- Fuzzy bodies
- Pockets on legs for pollen
- Flying insect

Likes flowers that...

- Have bright colors
- Are flat or open
- Have a lot of pollen and nectar

Honeybee

1.

Looks like...

Likes flowers that...

2.

Looks like...

Likes flowers that...

3.

Looks like...

Likes flowers that...

4.

Looks like...

Likes flowers that...

5.

Looks like...

Likes flowers that...
